PUT ON EXTRA CAR

Hull Street Line Will Operate On

Sixty-Minute Schedule.
The Virginia Railway and Power vited to meet the second officer of the Company this morning will an extra car on the Hull Street line. This will make six cars regularly in operation, besides extras during the rush hours. Each car will cover the route in sixty minutes, operating on a base schedule of ten minutes apart. The small cars now in use will be replaced by articulated cars, which were formerly operated only during the rush hours. The old cars will be substituted to relieve the congestion during the morning and evenng. The articulated type has a seat-ng capacity of more than twice that of

the present cars.

While the schedule may be improved at certain times of the day, it is the opinion of the car officials that a pernanent remedy cannot be found as long as the cars operate around the Eighth Street loop. The tendency will be, it is said, to increase the congestion during the rush hours. The cars will make slower time when run according to the new schedule.

Superintendent Bryce vesterday put in operation the automatic register, or head recorder, for timing Hull Street cars. As the trolley passes under the Pursuant to an order of the District Court of the United States for the Eastern District of Virginia, in the matter of Bernard, Francis Co., Inc., bankrupt, entered on the 17th day of January, 1914, we will sell at public auction, on the premises, No. 431 East Broad Street (corner Fifth and Broad Streets).
